

PEMCO 140 15W-40 PM0140

Highly refined economy-class mineral engine oil for highly accelerated petrol and diesel engines with or without a turbocharger, with a very high mileage used in varying operating conditions.

Product properties:

- High viscosity index and excellent compatibility with sealing materials reduce the leakage probability and ensure the necessary oil pressure even for engines with a high mileage;
- Contains organic molybdenum which contributes to unique anti-friction and anti-scuffing properties;
- Low volatility reduces oil consumption through burning;
- A thoroughly balanced additive package ensures an efficient service of an engine in all modes of operation: cold start, increased load (off-road and uphill driving, towing, driving with maximum load) and in high-temperature ambient conditions;
- Durable oil film effectively protects from wear, reduces friction and prevents corrosion;
- Ensures reliable lubrication of all engine components under all operating conditions;
- Good detergent and dispersing properties reduce the soot and carbon formation to a minimum;
- Natural antioxidants effectively resist ageing and maintain oil's properties in case of a variable fuel quality (with sulphur content up to 500 ppm) due to a high total base number (TBN). Keeps engine parts clean throughout the entire interval between replacements;

Intended for the maximum protection of petrol and diesel engines of a wide car fleet (passenger cars, light SUVs, minibuses and light trucks) produced by Russian, European and other manufacturers.

The oil is not suitable for use in heavy trucks and similar vehicles!

SPECIFICATION

- SAE 15W-40

RECOMMENDATION

- API SN/CH-4
