

PEMCO®

BRAND PRESENTATION

BRAND HISTORY

The PEMCO brand has been present in the engine oil market for many years, during which time it has earned the respect and devotion of millions of car enthusiasts and professionals around the world.

The brand's history began in 1962, but it was not until 2004 that a large-scale modernization process that significantly increased the factory's production capacity was established and initiated.

Today, all PEMCO products are manufactured under strict control in the largest lubricants factory in Northern Europe. We not only produce lubricants but also fill them into plastic canisters manufactured in-house.

The territory of UAB SCT Lubricants occupies 10 hectares with 200 people working there.

PEMCO's product range includes more than 100 different names of automotive oils, fluids, greases, and additives.

ENGINE OILS

FOR CARS, TRANSPORTERS, MOTORBIKES AND TRUCKS

With PEMCO engine oils, you can quickly find the best oil for your vehicle, whether it runs on petrol, diesel, or gas.

Designed specifically to meet the needs of cars, transporters, motorbikes, and trucks, our high-quality oils provide excellent lubrication, reduced friction, improved fuel efficiency, and engine longevity.

You can be sure that only the highest quality raw materials and the most effective additives are used in the production process so that our oils provide your engine with excellent lubrication under any load and in all weather conditions.

Choose PEMCO for performance and protection in one package.

GEAR OILS

GEAR OILS AND TRANSMISSION FLUIDS

Unlock the true potential of your vehicle's drivetrain with PEMCO's premium transmission fluids and gear oils.

These essential fluids are specially formulated to provide optimum lubrication, reduce friction, and extend the life of your vehicle's gears and transmission components.

We offer a range of products that meet and exceed industry standards for everything from heavy trucks to high-performance sports cars.

With our commitment to quality, PEMCO is your first choice for a smoother, more efficient ride.

Discover the difference with our premium fluids today.

INDUSTRIAL OILS

FOR INDUSTRIAL, AGRICULTURAL, HYDRAULIC AND MARINE SECTORS

At PEMCO, we understand the special requirements of the industrial, agriculture, construction, and marine sectors.

Our specialty oils are carefully crafted to meet these challenges. From ensuring the smooth operation of heavy machinery to powering reliability, our high-

performance oils provide the essential lubrication, protection, and performance you need.

Trust PEMCO for quality oils that keep your machinery running efficiently in the most demanding environments. Discover the difference today with our premium range.

ANTIFREEZES AND COOLANTS

Antifreeze 911 (-40 °C)

AdBlue®

SERVICE FLUIDS

OPERATING AND SERVICE FLUIDS

Our service fluids range consists of two types of antifreeze: ready-to-use and concentrate, as well as operating fluids.

Our high-quality products are designed to safeguard your vehicle's performance and safety.

With a commitment to quality and environmental responsibility, our products ensure that your vehicle remains in top condition, delivering a smoother, safer, and more efficient ride.

Choose PEMCO for the fluid solutions your vehicle deserves.
